

Lamborghini Temerario lights up Riyadh with 920 CV of hybrid power

The latest model in Lamborghini's High Performance Electrified Vehicle (HPEV) range was presented to Saudi Arabian audiences at Lamborghini Riyadh

Riyadh, Saudi Arabia, 18 February 2025 – Automobili Lamborghini recently unveiled the all-new Temerario¹ to Lamborghini customers during an exclusive event at Lamborghini Riyadh in the Saudi Arabian capital.

A selected group of guests said 'Ya Hala' to the latest Lamborghini super sports car at an exclusive launch event. Clients and guests from the Kingdom of Saudi Arabia, and the wider GCC region, gathered to explore the Temerario and its technological and performance innovations that make it 'fuoriclasse': outstanding, in a class of its own.

Paolo Sartori, Head of Middle East & Africa at Automobili Lamborghini said: *"The Kingdom of Saudi Arabia is a key market for Automobili Lamborghini, and we are delighted to have been given the opportunity to unveil the Temerario in Riyadh. Temerario is a super sports car in a class of its own, attracting strong interest from clients in the Middle East who eagerly await delivery of its new benchmark power, performance and presence."*

Equipped with a twin-turbo V8 hybrid powertrain that redefines the very concepts of performance, driving pleasure and comfort, the Temerario is the second model in the Lamborghini High Performance Electrified Vehicle (HPEV) range to enter the Middle East market after the Revuelto² and completes the hybridization of Sant'Agata Bolognese's line-up following the market debut of the Urus SE³.

Constructed with a multi-technology aluminium spaceframe approach to withstand the higher loads deriving from the new hybrid power unit, the Temerario has a total power output of 920 CV, reaching a top speed of 343 km/h and accelerating from 0-100 km/h in 2.7 seconds thanks to its V8 bi-turbo engine paired with three electric motors. The Temerario is the first and only production super sports car engine able to reach 10,000 rpm.

Guests had the exclusive opportunity to witness the groundbreaking design of the new Lamborghini Temerario up close before delving into the endless customisation possibilities of the Ad Personam programme. With over 400 exterior colours, tailored interior options and bespoke trim selections, specialists were on hand to guide them through the art of personalisation.

¹ The vehicle is not yet offered for sale and is therefore not subject to Directive 1999/94/EC. The fuel consumption and emissions data is in the type approval stage.

² Consumption and emission values of Revuelto: Combined fuel consumption: 11,86 l/100km; Combined power consumption: 10,1 kWh/100 Km; Combined CO2 emissions: 276 g/km; Combined CO2 efficiency class: G; Combined fuel consumption with discharged battery: 17,8 l/100km; CO2 efficiency class with discharged battery: G; (WLTP)

³ Consumption and emission values of Urus SE: Combined fuel consumption: 2,08 l/100km; Combined power consumption: 39,5 kWh/100 Km; Combined CO2 emissions: 51,25 g/km; Combined CO2 efficiency class: B; Combined fuel consumption with discharged battery: 12,9 l/100km; CO2 efficiency class with discharged battery: G; (WLTP)
