

## **Accademia Vallelunga: the world of Lamborghini fueled by adrenalin and lifestyle**

### **An authentic experience as a professional driver on track**

*Sant'Agata Bolognese, 28 October 2025* – Automobili Lamborghini's second edition of Accademia Vallelunga in October 2025 initiated Lamborghini owners into the impassioned and exciting world of track driving. Over ten days, the exclusive program welcomed more than 130 clients and their companions at the Vallelunga circuit just outside Rome, immersing participants into an experience delivering the adrenalin rush and lifestyle of track driving and, ultimately, racing.

Like the first Accademia held in June this year, the choice of Rome as the venue was not by chance. The Eternal City possesses the timeless charm expressed in Fellini's *La Dolce Vita*, as well as representing the epitome of Italian elegance that defines 'Made in Italy': a fundamental pillar of the Lamborghini brand. The Accademia guests were accommodated at the Cavalieri Waldorf Astoria, one of the most elegant hotels in the heart of the capital, from where they experienced exceptional hospitality and exclusive experiences in stunning settings.

The most important location was of course the Vallelunga Circuit, where the technical training, thrills and emotions created by Accademia were focused on participants' experiences behind the wheel of Lamborghini super sports cars, 'living the track environment' as if they were professional drivers thanks to the meticulously-delivered driving programs.

The Accademia takes place on two distinct levels: Mach I and Mach II, designed to offer progressive and tailored learning. Mach I is designed for those who are encountering track driving for the first time. Participants get behind the wheel of the Huracán STO, where they learn the basics of sports driving and familiarize themselves with the car's technical features, all under the guidance of Lamborghini instructors. Mach II is a more advanced level, dedicated to those who want to perfect their skills and enjoy an even more immersive experience. In this module the Huracán STO also takes center stage, pushed to its maximum potential in autonomous driving sessions and exercises focused on track performance. At the conclusion of training Mach II participants can experience the thrills of racing, as a passenger in a Huracán Super Trofeo EVO 2 for an authentic taste of Lamborghini's one-make racing series, the Lamborghini Super Trofeo.

Automobili Lamborghini also welcomed collaboration from its various partners who contributed to the Accademia track driving program. **Bridgestone**, the official partner of the Accademia, supplied tires for the cars used on track, and educated on the role tires play in the track environment. **Macron** created race suits for all participants, combining comfort and sporty style in garments for both clients and instructors.

Lamborghini Accademia events will continue in 2026, delivering further track-driving courses and exclusive experiences - all under the banner of adrenalin.
