

Automobili Lamborghini Holds World Debut of Revuelto SV at The Quail, A Motorsports Gathering

Limited to 1,963 units, the Revuelto SV is the fastest accelerating and most powerful production Lamborghini ever built

Sant'Agata Bolognese/Carmel-By-The-Sea, 15 August 2026 – As part of Monterey Car Week, Automobili Lamborghini yesterday unveiled the Revuelto SV¹, the fifth model to wear the iconic Super Veloce (SV) name, at The Quail, A Motorsports Gathering. Representing the latest evolution of Lamborghini's legendary V12 super sports car, the Revuelto SV embodies the purest expression of the brand's performance philosophy.

The Super Veloce designation, meaning "Super Fast," was first introduced in 1971 on the Miura SV, establishing a legacy that has defined one of Lamborghini's most performance-focused V12 models for more than five decades. Following the Miura SV was the Diablo SV (1995), Murciélago LP 670-4 Super Veloce (2009), and the Aventador SV (2015). The Revuelto SV becomes the latest chapter in one of Lamborghini's most celebrated lineages.

"The Super Veloce lineage is one of the most iconic in Lamborghini's history, reserved for some of our most extreme V12 models," said Stephan Winkelmann, Chairman and Chief Executive Officer of Automobili Lamborghini. *"With the Revuelto SV, we continue that tradition by taking our V12 flagship to higher expression of performance and driving emotion. Sharing this milestone at The Quail, together with our top customers and enthusiasts in our largest global market, is the perfect way to celebrate the next chapter of the SV legacy."*

Delivering a combined output of 1,065 CV (1,050 horsepower), the Revuelto SV is the most powerful and fastest-accelerating production Lamborghini ever built in Sant'Agata Bolognese. Powered by a naturally aspirated V12 engine paired with three electric motors and a new high-performance battery, it accelerates from 0 to 62 mph (0 to 100 km/h) in 2.4 seconds with a top speed exceeding 214 mph (345 km/h). With 50 CV (49 horsepower) more than the Revuelto and optimized aerodynamics that deliver greater downforce, more precise handling and enhanced lap-time performance during track driving, the Revuelto SV advances Lamborghini's high-performance strategy while delivering on precision, responsiveness, and driver engagement.

The Revuelto SV shared the stage with the debut of the Temerario Tricolore and the Urus SE Performante, showcasing Lamborghini's full hybridized lineup. The Temerario² Tricolore celebrates Lamborghini's Italian heritage through a unique Ad Personam specification inspired by "Made in Italy" craftsmanship and design, while the Urus SE Performante³

¹ The vehicle is not yet offered for sale and is therefore not subject to Directive 1999/94/EC. The fuel consumption and emissions data is in the type approval stage

² Temerario (WLTP): Energy consumption (weighted combined): 6,4-4,3 kWh/100 km plus 11,2-10,3 l/100km; CO2 emissions (weighted combined): 272-252 g/km; CO2 class (weighted combined): G; CO2 class with discharged battery: G; Fuel consumption with discharged battery (combined): 14 l/100km

Media Information

establishes a new benchmark for performance, becoming the fastest Super SUV in the world: 0 to 62 mph (0 to 100 km/h) in 3.3 seconds and reaching a top speed of 194 mph (312 km/h).

The VI2 heritage was also celebrated through a dedicated Diablo class at The Quail, featuring 30 Diablo models spanning 1994 to 2001, including several Diablo SV examples that represent milestones in the evolution of the Super Veloce name. The display underscored Lamborghini's VI2 legacy while highlighting how the Revuelto SV carries the Super Veloce tradition into a new era of performance.

Throughout the weekend, Lamborghini will welcome clients, collectors, and VIP guests to the exclusive Lamborghini Lounge Monterey, located alongside the iconic Pebble Beach Golf Links. There, guests will experience the company's latest lineup, including the Revuelto SV, Temerario, and Urus SE Performante. On Sunday, August 16, Lamborghini will commemorate the 60th anniversary of the legendary Miura with more than 40 examples displayed on the 3rd fairway at the Pebble Beach Concours d'Elegance, marking the largest gathering of Miuras ever assembled. The display will be anchored as well by the newly unveiled Revuelto Miura 60° Homage, a special edition limited to 99 examples that pays tribute to the world's first supercar.

Company information

Founded in 1963 in Sant'Agata Bolognese, near Bologna, Automobili Lamborghini is one of the world's leading names in luxury super sports cars, defining the future of the segment through uncompromising performance, design and emotion. Rooted in a 100% Italian identity and supported by a global community driven by passion, craftsmanship and people, the company combines technological innovation with authentic racing DNA, with motorsport serving as both a strategic laboratory and a core expression of the brand.

From iconic models such as the Miura, Countach, Diablo and Aventador to limited editions including the Sesto Elemento and Fenomeno⁴, Lamborghini has consistently created lasting value through rarity, personalisation and craftsmanship. Today, its fully hybrid line-up is structured around three main model families: Revuelto⁵, the first HPEV with a VI2 engine; Urus SE⁶, the first plug-in hybrid Super SUV; and Temerario, the benchmark V8 HPEV in its category. From each family come the most extreme versions, such as Urus SE Performante, an authentic expression of the brand and its most performance-oriented soul, and Revuelto SV, the latest evolution of Lamborghini's VI2 Super Veloce lineage, combining enhanced performance, racing-inspired technologies, and an even more engaging driving experience.

With over 3,000 employees and a network of 186 dealers in 57 countries, Automobili Lamborghini continues to grow responsibly through long-term vision, innovation and sustainability.

⁴ The vehicle is not yet offered for sale and is therefore not subject to Directive 1999/94/EC. The fuel consumption and emissions data is in the type approval stage

⁵ Revuelto (WLTP): Energy consumption (weighted combined): 4,7 kWh/100 Km plus 15 l/100km; CO2 emissions (weighted combined): 350 g/km; CO2 class (weighted combined): G; CO2 class with discharged battery: G; Fuel consumption with discharged battery (combined): 17,9 l/100km

⁶ Urus SE (WLTP): Energy consumption (weighted combined): 21,4 kWh/100 Km plus 5,71 l/100km; CO2 emissions (weighted combined): 140 g/km; CO2 class (weighted combined): E; CO2 class with discharged battery: G; Fuel consumption with discharged battery (combined): 12,9 l/100km
